Subject: PFAS in Containers

Jeff – Attached is some pertinent info, esp from the OPPT side.

There have been on-going meetings, weekly, for some time now. Kimberly is good about agendas & notes – she can likely send you link to where all that history is kept.

TSCA New Chemicals Nexus Paper is attached; Maybe new chemicals being formed, but would have to ‘characterize’ what any/all were; regardless, they could be deemed unintentional byproducts and are on articles, both of which can be exempt from new chemical reporting (i.e., PMN).

TSCA Existing Chemicals – SNUR analysis is underway.

A very DRAFT Pollution Prevention Outreach Plan is also attached; needs work; this isn’t really a strategy or plan; my comments are attached also).

All on this for now.
Tala
